LLR Active Schools County Calendar 2018-19

The 2018/19 LLR Active Schools County Finals Calendar contains all County (Level 3) Finals that will take place this academic year for both the Team Leicestershire & School Games competition programmes and is the culmination of the local school sport offer. It contains key play by dates for local (Level 2) qualification rounds and some basic information on formats. If you are interested in any of the competitions included, please contact your local SGO for more information and to get your school involved (<https://www.lrsport.org/sspan>).

The following is a NEW competition structure that will enable more individual young people to represent your school in sport or physical activity at a level that is appropriate to their interests and competencies. Each competition has been allocated to a tier, with a description of the tiers as follows. Please ensure that you are aware of the tier of competition so that you can select your teams appropriately.

<p>Performance Competition</p>	<p>Performance based competitions catering for the most talented athletes and teams that your school can field, subject to some eligibility criteria (e.g. National Governing Body age restrictions on competitions). These competitions are an opportunity to showcase the sporting prowess of your school and for teams to progress to County finals and in most competitions to Regional and National finals. We would advocate an 'in it to win it' approach to team selection for these competitions, however this does not mean that schools with 'weaker' sides should not enter as the level 2 and level 3 structure will allow each school to perform at their relevant level as it has done so in the past.</p> <p>In real terms these competitions - e.g. Team Leicestershire football - will continue to function as they have in previous years.</p>
<p>Development Competition</p>	<p>A newly branded strand of competitive school sport where the focus is to increase the number of individual pupils that represent our schools. These competitions provide the opportunity for less-engaged students, or those that are engaged but are perhaps less talented in traditional sports, to participate in non-traditional competitions e.g. handball. The ideal model for this is that the pupils that represent a school in the 'Performance Competitions' would not be eligible to play in 'Development Competitions', though we understand that there may be some crossover for smaller schools.</p> <p>This competition tier is a new addition but is mostly based on existing sports. Where previously many schools have entered say, football and rugby players into dodgeball competitions, we aim to limit this so that other pupils may have the opportunity to represent their school at sport, rather than the most talented few monopolising the competition offer. The number of competitions has therefore not increased, but the new focus caters for an increase in the total of individual pupils that participate.</p>
<p>Engagement Festival</p>	<p>Sports/Events that have the potential for different pupils, outside of the above competition pathways to represent their school in an event that is first and foremost about taking part.</p>
